**ABSTRACT:** Thus every person has his primary schedule. Deviation from such schedule punishes the person severely. Prize may fail. It may reach late. Sometimes it reaches never. In contrast, punishment fails hardly. It reaches timely. A person may remain unrewarded even doing his duties. He may remain unrecognized even. To the unfortunate fellow duty implies thankless job. But in case of negligence or disobedience punishment or suffering is sure and certain. This is hard reality. This is real life. Only an experienced person knows the glory of primary thing.

**KEYWORDS:** *Primary, chief importance, principal, main, first rank, primitive, basic, fundamental, direct, first hand*

### INTRODUCTION

Creative writing is based more on manifestation rather than on expression. It does not inform, rather it reveals. So it bears no reference. The best creative writing is critical, and the best critical writing is creative. This article is an outcome of thinking about creative writing meant for a general readership. As such, I have adopted a free style methodology so that everyone can enjoy the pleasure of reading. As you

might know, Francis Bacon (1561-1626), the immortal essayist, wrote many essays namely 'Of Love', 'Of Friendship', 'Of Ambition', 'Of Studies', and so on. The multiple-minded genius correctly pointed out that all the words of the dictionary can

be used as themes for essays. But little has been done since his death to continue or finish his monumental task. Bacon's unique individual style of presentation ignited my imagination and encouraged me to write creative essays as a method of relieving a wide range of emotions through catharsis.

## ARTICLE

Primary means of chief importance. It implies principal.

It is earliest in time or order. For example: The primary stage of their political education.

It means more important than anything else. It is main. For example: The Red Cross's primary concern is to preserve and protect human life.

It is first in order of time or development. It is primitive e.g., the primary stage of civilization.

It is of first rank, importance, or value e.g., the primary purpose.

It is basic. It is fundamental. For example: Security is a primary need.

It is direct. It is firsthand e.g., primary sources of information. It is a primary colour.

It is, in the US, a preliminary election to appoint delegates to a party conference or to select the candidates for a principal, especially presidential, election.

Identification of primary thing is very important. Primary action is to be taken first ignoring others. Even if the secondary thing is ready it should not be done without doing the primary thing. If the primary action cannot be taken first then whole project should be postponed till primary thing appears. It should be kept in mind that primary event should take place first then the other events will appear sequentially. It is a very serious matter. In most of the cases this priority is neglected.

Only a wise can identify the right thing and can take suitable decision accordingly. Most of the persons cannot select the primary objectives. They give priority to the unimportant things with utmost care. Thus they waste time, money and energy callously. This wrong decision is liable for failure thereby frustration as well in every sphere of life from cradle to coffin. Only a lucky and judicious person can identify the primary objective.

Right decision in right time enables a person to realize ambition. Similarly if right man is placed in the right position then success becomes easy. In reality this does not happen always. In most of the cases right man in the wrong place or wrong man in the right place is engaged causing failure in both the cases. This happens always in the public sector of a poor nation. Here lack of talent is the primary factor for underdevelopment.

Hunger appears automatically. It needs no persuasion or reminder. It appears timely as per pre-fixed schedule. It follows biological clock. No effort is required in this regard.

Food is the primary need. Man searches for food first. Man moves on foot. Worker moves on food. Without fuel a machine cannot work. Similarly, without food a worker cannot work.

A judicious person takes food timely. The learned values the proverb, "Health is wealth". In contrast a fool or a greedy person does not take food timely. He considers money as primary need. But without food body cannot remain active. As a result he suffers from ill health. In fact body takes revenge if food is not taken both properly and timely. A health conscious person knows that if body becomes inactive then the person can do nothing. His life becomes meaningless.

A hungry person may get both food and chance to meet up sexual urge. Someone will opt for the first one. Someone will opt for the second option. This option manifests the state and status of the concerned person.

The first person prefers food to keep his health active first. He ignores sexual involvement. After taking meal if he gets chance to enjoy sexual activity he will avail it. He does not run after illicit desire. To him health is primary concern.

The second person does not think for health. He suffers from sexual desire. As such he considers it as primary than food. He enjoys but his health does not permit it. He ignores health. He becomes ill.

Student life is very important in human life. A student if be involved in any activity other than study he will fail in the examination. This single failure will pave the way for his series of failures lifelong. Misfortune dogs him where ever he goes. He suffers till he breathes his last.

Similarly, if a businessman be engaged in other activities other than business, the primary concern, he faces loss that culminates his ultimate and untimely downfall.

Thus every person has his primary schedule. Deviation from such schedule punishes the person severely. Prize may fail. It may reach late. Sometimes it reaches never. In contrast, punishment fails hardly. It reaches timely. A person may remain unrewarded even doing his duties. He may remain unrecognized even. To the unfortunate fellow duty implies thankless job. But in case of negligence or disobedience punishment or suffering is sure and certain. This is hard reality. This is real life. Only an experienced person knows the glory of primary thing.

Sometimes recognition reaches to the concerned person just before death or in most of the cases after long time of occurring death like posthumous child.

There are two types of business men. The first category thinks for profit. The second category thinks for loss. Thus both the persons are diagonally opposite regarding their primary thinking. Profit is not the factor. It helps to improve. Loss causes trouble. Loss means going behind. To make up loss is an enormous and troublesome task. All do not have stamina to face and conquer it. As such a good businessman thinks for profit. A great businessman thinks for loss. They say where goodness ends greatness begins.

Business is a difficult venture. Both sound body and sound mind are must. Its return is not certain. Return on investment (ROI) is not sure. Profit depends on various parameters. If one criterion fails to satisfy then desired result remains unfulfilled. As such loss is too easy and quite natural and profit is too difficult and depends on expertise. All are not expert. All cannot be expert. All are not destined to be expert. Very few learn it. More few get it by birth. Most few can hold it for long. This answers why successful business men are numbered.

Attention is the primary key to attain success. It needs effort. Inattention needs no effort. It is natural like a spring that comes out of the hill spontaneously. Attention causes pain. Very few persons can bear that pain. This answers why attentive persons are numbered, rather the world is infested with inattentive persons. As such they say mob is brainless crowd.

Primary education builds the base. This base is permanent in nature since the brain of the tender soul remains clear and free from hazards i.e., cares and anxieties of life. The tender soul can grasp anything quickly which is not possible by an adult brain. Adult education does not last long like primary learning. An adult forgets early since the learner did not learn the lesson with joy of learning.

Primary means source. Every primary motto has final destination. Sometimes the destination is pre -assumed or fixed. Sometimes the founder gives liberty to the future persons to take decision as per situations as will be faced with.

A pioneer is a primary person. He possesses master mind. Through his master plan development takes place. Such a person is highly imaginative in nature. His faculty of mind mingles both imagination and reality. It is quite unexpected. It is unique in nature. It is rare individual style. Only a genius can do it. Genius in all ages devotes in primary activity.

## **CONCLUSION**

Primary, secondary, tertiary, etc. are the sequences or chronologies of any project. Care should be taken so that these events appear or to be brought one by one smoothly to get the desired result. If the sequences are not properly maintained then the whole project will be frustrated. Here lies the importance of primary.
